

TOYOTA

COROLLA

Are you ready to be moved?

You'll know when you've seen the new Toyota Corolla. Eye-catching, bold and refined, you'll feel it inside. With sophisticated styling and superior handling along with a spacious interior designed to comfortably seat a family on the move.

Along with advanced features to keep them safe and secure – the new Toyota Corolla is everything you've been looking for. Luxurious inside and out, along with class leading performance, the new Toyota Corolla is the ultimate vehicle for those who want the enjoyment of driving and owning a vehicle designed to deliver comfort, convenience and sophistication.

Be moved by angles

Whichever way you look at the new Toyota Corolla, it looks as good as you do. Designed by world-renowned automotive specialists, the exterior and interior form a whole that evokes emotion.

Approach it head on and the newly raised engine hood and curved bumper corners give the viewer the feel of a sculpted 3D effect. Along with the thin wide upper grille, headlamps and the under grille, you'll be amazed by the streamlined, seamless appearance.

Any angle

From the side, the lines run through elegantly with a raised front top which links to join the front and rear in orchestral harmony.

Coloured exterior mirrors are integrated with an indicator and are electronically adjustable. To unite the overall look, all models come with 16" alloy wheels.

**Sporty, stylish and finished
with a touch of class**

A move towards distinction

The intentions are clear for all to see in the spacious comfort of the sedan. Spacious cabin compartments create the sensation of simple, yet advanced sophistication. On selected models, you can get even more such as leather seats and the reverse camera with guidelines.

Move your family forward with a stylishly finished steering wheel. You won't be able to keep your hands off it.

Start System

A redesigned key increases the appeal of the Smart Entry & Start System which allows the driver to open/close the doors and start the engine simply by carrying the key.

Steering Wheel Switches

Everything in your new Corolla at your fingertips, including audio, Multi Information Display (MID) and phone connectivity.

Air-Conditioning

Frequently used switches have been relocated to the center, plus spacers have been installed to make operation easier.

Audio System

Electrostatic touch panel display achieves smooth usability and even offers flick operations with USB/mini-jack functionality

Meter Cluster

A refreshed double-gauge meter with a 4.2-inch color Multi-information display

Cabin Illumination

Stylish enhancements that give the interior an ultra premium feel

Moved to protect

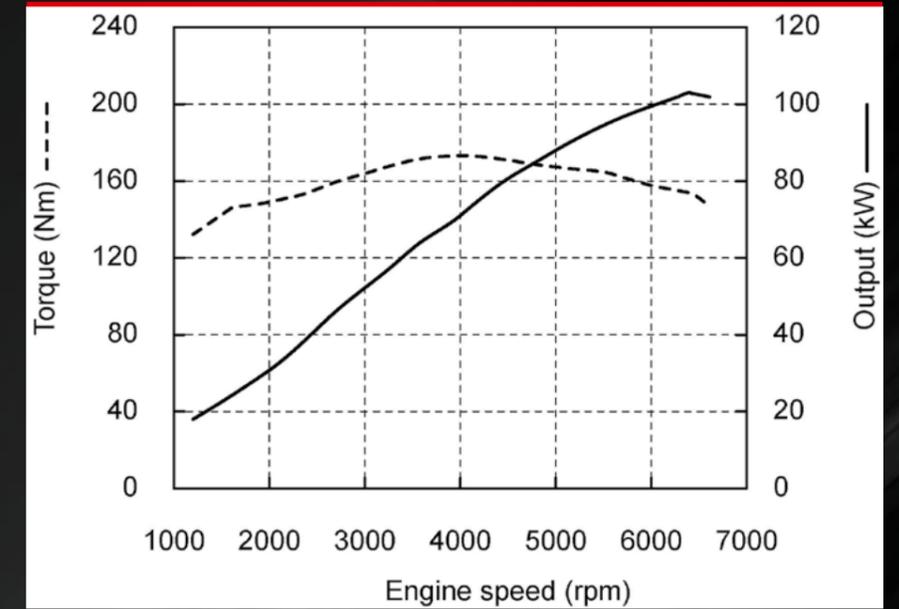

Safety is a non-negotiable in the Corolla, which is why we've included the most advanced features as standard on all our models, inside and out.

Seven SRS airbags help protect the driver and passengers, Anti-lock Braking System (ABS) prevents wheel lock-up and skidding, and Vehicle Stability Control (VSC) counteracts any over steer or under steer when cornering, while the Emergency brake signal alerts trailing vehicles if you're forced to make a sudden stop.

Exhilaration through movement

Agile, sporty, responsive performance and excellent fuel efficiency, the Corolla delivers smooth and effortless power whenever you need it.

16V 1.8-liter (2ZR-FE)
103kW / 6400rpm
173Nm / 4000rpm

16V 1.3-liter (1NR-FE)
73kW / 6000rpm
128Nm / 3800rpm

16V 1.6-liter (1ZR-FE)
90kW / 6000rpm
154Nm / 5200rpm

Engine

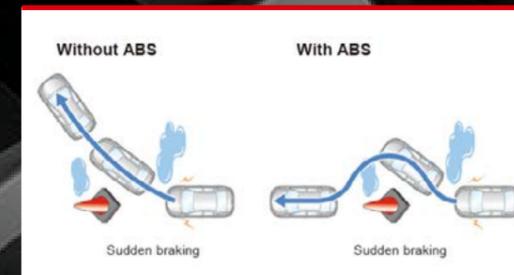

Lightweight with advanced Toyota technology, the Corolla engine variations deliver exhilarating performance and outstanding fuel efficiency, thanks to CVT (Continuous Variable Transmission) technology.

Suspension

Excellent stability, control and ride comfort, the Corolla suspension is designed by optimising various suspension components and braking performance.

A number of safety features gives safety in numbers

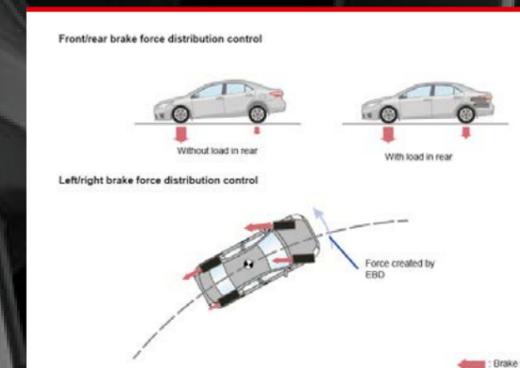

ABS - Anti-lock Braking System

ABS technologies and systems are designed to increase braking performance.

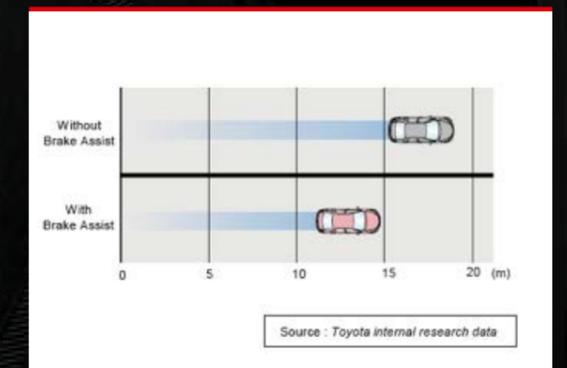

Light Control System

While driving during the day, LED Day Light Running helps recognition by oncoming vehicles driving ahead. It stays illuminated even when the headlamps are off.²

EBD - Electronic Brake-force Distribution

EBD senses how much weight is being carried in the vehicle in addition to weight transfer during cornering or braking and adjusts braking pressure distribution to each wheel to maximize efficiency. EBD also controls the brake forces between the left and right wheels when the brakes are applied while cornering.

BA - Brake Assist

BA carefully monitors the speed and force with which the brake is pushed to determine whether a driver is attempting an emergency stop. If an emergency situation is detected, the system applies additional brake pressure to help generate greater braking force.

A range of colours to awaken every spirit and emotion.

There are a range of colours that allow you to match your Corolla to your personal taste. Be bold and bright, sporty and sharp or select understated style. The choice is yours.

Exterior Colours

Super White - (040)

Silver Metallic - (1F7)

Gray Metallic - (1G6)
